PROFESSIONAL EXPERIENCE

Varknow, Tehran, Iran

May 2023 – Present

React Developer

- I am a React Developer and an integral member of the frontend development team at Varknow, a pioneering company in blockchain systems within Iran.
- Currently engaged in a project, "Rentazone," under a foreign employer, focused on creating a platform facilitating item rental transactions.
- Successfully completed the Minimum Viable Product (MVP) phase, achieving project milestones.
- Presently leading efforts to enhance the platform using React JS, aiming to optimize site efficiency and long-term maintainability.

Mohadese Yoga, Tehran, Iran

Mar 2023 – May 2023

React Developer

- Freelance project: Developed a React and Next.js website integrated with Node.js to cater to a growing yoga teacher's business requirements.
- Designed and implemented a private platform delivering high-quality videos to students, ensuring optimal user experience.
- Successfully enforced video download restrictions and implemented an intuitive admin panel for effortless user management.
- Customized viewing restrictions per course, enhancing content control and user engagement.

Lidalid, Tehran, Iran

Jan 2022 – Mar 2023

Internship of Frontend developer

- Internship at Lidalid, a Tehran-based startup in the Iranian phone market sector.
- Contributed to the development of a platform enabling users to sell and purchase certified second-hand phones.
- Gained proficiency in CSS, HTML, JavaScript, and React while actively participating in the development process.
- Acquired valuable insights into development team dynamics and Agile Scrum methodologies during the experience.

EDUCATION

Tehran University, Tehran, Iran
